Pharmacy
You and the
Future

**Work hard,
study hard,
play hard**

Course Description

This course is divided into three function areas:

- I. *Assisting the pharmacist in serving patients*, including activities related to dispensing prescriptions, distributing medications and collecting and organizing information
- II. *Maintaining medication and inventory control systems* pertaining to activities related to purchasing medications and supplies, controlling inventory, and storing, preparing, and distributing medications according to policies and procedures
- III. *Participating in the administration and management of pharmacy practice*, including administrative activities that deal with such issues as operations, human resources, facilities and equipment, and information systems

Required Textbooks

- 1) **The Pharmacy Technician 4th ed.:** APhA Basic Pharmacy & Pharmacology Series. Morton Publishing Co., 2010.
- 2) **Complete Math Review for the Pharmacy Technician 3rd ed.:** William A. Hopkins, Jr, APhA, 2010
- 3) **The Pharmacy Technician Workbook & Certification Review 4th ed.** Morton Publishing Co., 2010.

Course Goals

- To instill in the student the ability to perform the course objectives and to successfully pass the Pharmacy Technician Certification Exam (PTCE)
- To encourage active participation in state & national pharmacy associations to impact the innovative practice of pharmacy
